ORGANIZER : Research Center for Advanced Science and Technology

The Research Center for Advanced Science and Technology (RCAST), the University of Tokyo will hold a joint workshop with the Advanced Institutes of Convergence Technology (AICT), Seoul National University. In this workshop, examples of activities of Industry-Academia-Government Collaboration and practical developments for society will be shown. We expect that this workshop will offer an opportunity to think of social contributions and how to conduct R&D to develop new fields in advanced science and technology.

Everyone is welcome to attend.
